Backend Development · Dual-Degree Background · On-Site Support in Japan

Profile

Software Engineering undergraduate in a Sino-American 4+0 dual-degree program, expected to graduate in 2027. Seeking software/backend internships with international teams; experience in Python backend services, RAG retrieval, Linux/Docker operations, and on-site broadcast support in Japan.

Education

Quanzhou University of Information Engineering *2023–2027 (expected)*
Software Engineering (Sino-foreign Cooperation) GPA: 3.10/4.00

Slippery Rock University
Information Systems, BS (in progress; expected 2027) GPA: 3.583/4.000

Sino-American 4+0 dual-degree program conducted in China; approved by the Ministry of Education of China.

Selected Development Projects

NoteLLM: Personal Learning QA with Verifiable RAG Ongoing
Undergraduate thesis

- Built a FastAPI backend with async SQLAlchemy, PostgreSQL, and pgvector for cosine-similarity retrieval; implemented page-aware extraction and overlapping chunks for PDF, Markdown, and TXT.
- Validated citations against retrieved chunks on the server and stored source excerpts for verification.

ETIPlus: Community Governance & WeChat Management Backend Mar–Apr 2025

- Built a Flask backend with PostgreSQL for landlord credit scoring, rankings, and anomaly audits, and MongoDB for WeChat message storage.
- Developed APIs for group moderation, regex nickname checks, and Excel/CSV imports; automated regression checks with Postman.

International On-Site Technical Support

Sinotech Xinrui (Beijing) Co., Ltd. 7–22 Sep 2026
TOC Operator | Gifu, Japan | 16-day on-site assignment

- Supported football broadcasts at Gifu Nagaragawa Stadium, Japan, for the 20th Asian Games Aichi-Nagoya 2026; host broadcaster: China Media Group-International Media Port (CMG-IMP).
- Coordinated pre-match power, intercom, and primary/backup feed checks; monitored TOC signals. Helped engineers isolate an optical-transmitter fault through receiver replacement and attenuation tests; the feed was restored after replacement and end-to-end verification.

Teamwork & Contest Coordination

University ICPC/CCPC Training Team | Coordinator Sep 2024–Sep 2026

- Coordinated university ICPC/CCPC team recruitment, training, selection, and participation logistics.
- Supported university teams at the 2026 ICPC Nanchang Invitational; 2025 CCPC Nanchang Invitational/Jiangxi Provincial Contest; 2026 CCPC Fujian Invitational/Provincial Contest; 2025 ICPC Asia EC and CCPC online contests; 2026 CCPC Guizhou Provincial Contest/National Invitational; 2025 ICPC Guizhou Provincial Contest; and 2024 ICPC Kunming Regional Contest.

ACM Algorithm Club | Organizer Sep 2024–Sep 2025

- Managed day-to-day club operations and helped organize the coastal alliance joint contest, involving seven partner universities.
- ISCPC-AC Cup collegiate programming contest: principal organizer and problem setter.
- 2025 QUIE-Software School ACM Algorithm Contest (2nd Aipin Huiying Science & Technology Festival): one of the organizers and problem setters.

Competitive Programming & Awards

- 2026 National Invitational of CCPC (Fujian), 13th Fujian Collegiate Programming Contest: First to Solve Award (Problem A; problem-level award).
- The 2024 ICPC Asia Kunming Regional Contest: Honorable Medal.
- 15th Lanqiao Cup: First Prize, Fujian Provincial Round, Python Programming (University Group B), 2024.

Technical Skills

Languages & algorithms: C++, Python, Java, JavaScript, Go; algorithms and data structures.
Backend & databases: FastAPI, Flask, RuoYi, PostgreSQL, MongoDB, MySQL; REST API design and integration.
Systems & operations: Linux, Docker, Git, DOMjudge, Cloudflare Workers/CDN/DNS, WARP egress routing.
Development workflow: Familiar with Codex, Claude Code, and Antigravity CLI; test, static-check, and build validation.
